52'

Dated 15.2.1954.

[Despatch Abstract.]

ELECTRICITY DEPARTMENT - Establishment - Temporary Scheme for supply of electricity from Jog Falls to South Kanara District - Additional staff for construction - Sanctioned.

* * *

Government Electricity Department

The Chief Engineer for Electricity,
157, Mount Road, Madras-2

The Secretary to Government,
Public Works Department,
Madras-9

No.2921-H/52-10/dated 14-12-53

Sir,

Sub: Establishment--Temporary--South Kanara Electrification Scheme--Additional establishment--Sanction--Proposals.

Ref: i--G.O.Ms.No.5035, P.W., dt.10-12-52
ii--G.O.Ms.1269, P.W., dt.24-3-53
iii--G.O.Ms.3922, P.W., dt.29-9-53 and
iv--G.O.Ms.No.4113, P.W., 22-10-53

I have to state that sanction exists at present for 3 Sub-Divisions with the requisite staff for the execution of the South Kanara Electrification Scheme, as shown in the attached statement.

All the materials required for the 110 KV transmision line and sub-stations are now at site or at Mettur Workshops awaiting deps despatch to destinations and hence the erection of the 110 KV and 33 KV tnranformation lines and sub-stations could be proweeded with speedily and works completed in the shortest possible time. If the work is organised properly and suitably distributed, it may be possible to complete the entire work by December 1954. It is not possible for the three sub-divisions already sanctioned for this scheme to keep up to this programme and hence at lteast 2 more sub-divisions are required over and above the staff already sanctioned, for a period of one year. The allocation of work for the five sub-divisions proposed are as detailed below:

I.Distribution of work for the existing 3 sub-divisions already sanctioned:

1.	Assistant Engineer (Civil) Mangalore	will be in charge of supplies and transport of materials
2.	Assistant Engineer (Civil) Sankaranana-rayana	Will be in charge of the 110 KV line work from Hulikal to Hariadka
3.	Assistant Engineer (Civil) Karakal	Will be in charge of the 110 KV line work from Kiripadka to Mangalore

II.Distribution of work for the additional 2 sub-divisions now proposed.

1.	Assistant Engineer,Civil - Hiriadka	Will be in charge of constructio of 33 KV lines to Udipi, Coondapur and Karkala
2.	Assistant Engineer (Civil) Mangalore	Will be in charge of erection of sub-station at Mangalore, Hiriad Udipi, Coondapur, and Karkal and Palkot stations

3. As the entire work connected with the above scheme is to be undertaken departmentally, the ministerial and drawing staff already sanctioned for the Division and Central offices are not enough to attend to the increased account work in Division office and in the Central office. There will also be heavy work in the Drawing branch of the Division office due to increased correspondence work with the field. To cope with these works, additional ministerial and drawing branch staff are required for the Division and Central offices.

Field Staff (~~Circle Civil or Elec.~~)

Assistant Engineers (Civil / Electrical / Mechanical).
Junior Engineers or Supervisors I Gr. (Civil/Elecl./Mechanical)
Lower Division Clerks
Peons

Division Office

Upper Division Clerk I Gr.
Lower Division Clerks
Typist
Draftsman III Gr.

Office of the Superintending Engineer, General Construction Circle

Upper Division Clerk I Gr.
Lower Division Clerks

5. Sanction may also please be accorded for the drawal by the sta wherever admissible, of the following concessions.

(i) Unhealthy locality special pay wherever admissible
(ii) Compensatory allowance of 25% of pay to the staff working in forest areas.
(iii) House Rent Allowance admissible under the rules

6. The expenditure is debitable to '81.A.Capital outlay on Electricity Schemes--I.H.E.Schemes--P.W.Reconstruction--S.K. Distribution Scheme.'

7. Very early orders of Govt. are requested as the employment of the additional staff is necessary in order to keep up to the constructive programme.

From the C.E.,(E) No. 2921-H/52-10 dated 14-12-53.

G.O.Ms. 528 dated 15.2.54

The Government approve the proposal of the C.E.(E) for the formati of two additional sub-divisions for the execution of the scheme for supply of electricity from Jog Falls to South Kanara and sanction the employment for a perio of one year from the date of appointmen of the following additional staff for expediting the construction works of the scheme:—

I. Field Staff for 2 sub divisio

Two Asst.Engineers(Civil)/Electrical/Mechanical)

Six Junior Engineers or Supervisors, first grade, (Civil/Electrical/Mechanical)

Two Lower Division Clerks

Ten peons.

II. Division Office.

One Draftsman, third grade.

Two Lower Division Clerks.

III. Office of the Superintending Engineer, General Constructi Circle.

One Lower Division Clerk.

2. ~~Sanction is also accorded~~ The staff will be eligible draw ~~for the drawal by the staff sanctioned~~

(i) Unhealthy locality special pay, wherever admissible;

(ii) Compensatory allowance of 25% (twenty-fi pay to the staff working in forest areas, and

(iii) House Rent Allowance admissible under the rules.

3. The expenditure is debitable to '81.A.Capital outlay on Electricity Schemes - I.H.E.Schemes - Pottanar P.H.E.Reconstruction - ~~S.K.~~ South Kanara Distribution Scheme."

4. The Chief Engineer(Electricity) ~~is informed that~~ proposals for additional posts of one Upper Division Clerk and one typist for the Division Office have not been accepted. ~~is not approved.~~ He is ~~however~~ requested to furnish statistics of typing work done for the past one year and to justify in greater detail the need for employing an additional typist in the Division Office. As regards additional staff for the office of the Superintending Engineer, he is informed that there is no sufficient justification for allowing one Upper Division Clerk, first Grade, and one Lower Dvn.Clerk. If ~~further~~ the emplo additional staff (in S.E's office) is ~~requ~~ considered necessary, he is requested to justify the proposal in detail with reference to the statistics of work done in during ~~for~~ the past one year.

P.W.D.(R)

Sub: Electricity Department - Establishment - Temporary - South Kanara Electrificatior Scheme - Execution - Additional staff - Proposals.

Ref: From the Chief Engineer(Electricity) No. 2921-H/52-10 dated 14-12-1953.

A.D.S.

The Chief Engineer (Electricity) has submitted proposals for the employment of following additional staff for a period of one year for the execution of the South Kanar Electrification Scheme:—

Field staff - Two additional sub divisions

One Assistant Engineer(Civil/ Electrical/Mechanical.	) For each
Three Junior Engineers/Supervisors I Grade(Civil/ Electrical/Mechanical.	) sub-divisior
One Lower Division Clerk	)
Five Peons	)

Division Office:

One Upper Division Clerk,First Grad
Two Lower Division Clerks
One Typist
One Draftsman III Grade

Office of Superintending Engineer, General Construction Circle.

One Upper Division Clerk - First Gr
Two Lower Division Clerks

At present the construction works of the sche are carried on by 3 sub-divisions. The staff employed in the sub-divisions, Divisions and in the office of the Superintending Engineer General Construction Circle are given at p.5 It is now stated that 2 more sub-divisions ar required over and above the staff already sanctioned as it is not possible for the thre sub-divisions sanctioned for the scheme to keep up to the programme. The Chief Enginee (Electricity) considers that if the work is organised properly and suitably distributed, i may be possible to complete the entire work t

(a) Two Sub-divisions. The scale of staff for each sub-division is similar to the staff employed in the existing sub-divisions. In the circumstances stated in para 2 of the Chief Engineer(Electricity)'s letter, the staff proposed for 2 additional sub-divisions may be agreed to.

(b) Division Office

(i) One Upper Division Clerk I Grade:- At present there is already one Upper Division Clerk II Grade. The need for another Upper Division Clerk I Grade is not clear. Perhaps a post of one Upper Division Clerk I Grade may be allowed in lieu of the existing Upper Division Clerk II Grade.

(ii) Two Lower Division Clerks: The division has at present only one Lower Division Clerk. Perhaps another Lower Division Clerk may be allowed, instead of two additional lower division clerks asked for.

(iii) One Typist. There is already one typist. Statistics of typing work done has not been furnished in support of the proposal for additional post of typist. The Chief Engineer(Electricity) may be asked to justify in greater detail with reference to statistics of typing work done.

(iv) One Draftsman III Grade. The Division has already a draftsman, II Grade. It is reported that there will be heavy work in the Drawing branch of the Division Office. In view of this, the employment of additional Draftsman III Grade, may be agreed to.

(c) Office of the Superintending Engineer, General Construction Circle.

(i) One Upper Division Clerk, First Grade. At

The need for another Upper Division Clerk I Grade is not clear. Perhaps a post of Upper Division Clerk I Grade may be allowed in lieu of existing Upper Division Clerk II Grade.

(ii) Two Lower Division Clerks. Already there is one Lower Division Clerk and it seems that it would be sufficient if another post of Lower Division Clerk is sanctioned instead of the two l.d. posts asked for

3. The proposal in para 5 of the Chief Engineer(Electricity)'s reference may also be agreed to.

4. The expenditure on the additional staff will be covered by the sanctioned estimates for the main scheme. // Finance may see for remarks.

6/1/54

1.54

8/1/54

Fin.(E-II) Dept.

The case deals with the proposals of the C.E for Electricity for the employment of the followi additional staff for work connected with the execu of the S.Kanara Electrification Scheme:-

Field staff:- Two additional sub-divisions.

For each sub-div

- One Asst. Engineer (Civil Electrical/ Mechanical.
- Three Junior Engineers/Supervisors I Grade (Civil Electrical/Mechanical.
- One L.D.Clerk.
- Five peons.

Division office:-

- One U.D.Clerk, First Grade.
- Two L.D.Clerks.
- One Typist.
- One Draftsman - III Grade.

Office of the Superintending Engineer, General construction circle.

- One U.D.Clerk - First Grade.
- Two L.D.Clerks.

P.W. recommend the C.E.'s proposals, subject to th modification that they propose to sanction only D

~~L.D.Clerk to the S.E.'s office instead of 2, asked for the C.E (E)~~

As regards the post of the typist for the Divisit they propose to call for statistics.

The extra cost involved works out to about Rs 44, for 1 year.

2. The following remarks are called for in this dep

(a) Two sub-divisions- The C.E. has stated the it is not possible for the three existing sub-divisior keep up the programme and that at least 2 additional divisions are necessary. In the circumstances and as scale of staff is similar to the existing sub-divisic Fin. may agree to the proposal.

(b) Division office:- 1 U.D.Clerk:- ~~In the Division office, besides the Accountant there are 1~~ U.D.Clerk = II Grade and one L.D.Clerk. It does not seem necessary to add one U.D.Clerk - I Grade. No statistics have been furnished to judge whether the work in the office is heavy. ~~In fact, the post of U.D.Clerk was sanctioned only in October 1953~~. The post of add U.D.Clerk does not seem essential at this stage. Fin. therefore, advise that the post of U.D.Clerk may be c

2 L.D.Clerks and 1 Draftsman - III Grade:-

Fin. may agree to the employment of 2 L.D.Clerks a 1 Draftsman - III Grade, as proposed.

(c) Office of the Superintending Engineer:-

1 U.D.Clerk - I Grade and 1 L.D.Clerk:-

Additional ministerial staff to an office is norm allowed only with reference to the statistics of work done in an office. No such statistics have been furn in this case.

It is doubtful whether the work in the S.E.'s office will increase immediately, justifying the emplo of 1 U.D.Clerk - I Grade and 1 L.D.Clerk. ~~In the~~ It would, therefore, seem sufficient to allow an addi L.D.Clerk for the present. If further additional sta is still considered necessary, the C.E. may be reques

R

to justify the propo al in detail, with reference to the statistics of work for the past one year.

(4) Finance may agree to the proposal of the C.E. in para. 5 on p.3 c.f. (This is in accordance with orders issued in G.O.No.3781, P.W., dated 9-10-1950).

3. As it is stated that the expenditure on the additional staff will be met out of the sanctioned estimates of the work, it would be sufficient if M.(F.&.E.) sees the case before issue.

ADDITIONAL DEPUTY SECRETARY TO GOVERNMENT
20 JAN 1954
PUBLIC WORKS DEPARTMENT

NOTE FOR CIRCULATION

The Chief Engineer(Electricity) has submitted proposals for the employment of following additional staff for a period of one year for the execution of the South Kanara Electrification Scheme:--

Field staff - Two additional sub divisions.

One Assistant Engineer(Civil/ Electrical/Mechanical)	For each sub-division
Three Junior Engineers/Supervisors, I Grade(Civil/ Electrical/Mechanical.)	
One Lower Division Clerk	
Five Peons	

Division Office:

One Upper Division Clerk, first grade
Two Lower Division Clerks
One Typist
One Draftsman III Grade

Office of Superintending Engineer, General Construction Circle.

One Upper Division Clerk - First Grade
Two Lower Division Clerks

2. At present the construction works of the South Kanara Electrification Scheme are carried on by three sub-divisions. It is stated that all the materials required for the transmission line and sub stations are either at site or at Mettur Workshops awaiting despatch and that if the work is organised properly and suitably distributed it may be possible to complete the entire work by December 1954. The Chief Engineer (Electricity) has urged that it is not possible for the three sub-divisions already sanctioned for the scheme to keep up to the programme and that at least 2 more sub-divisions are required over and above the existing staff. As the entire work connected with the scheme it is reported, is to be undertaken departmentally, additional ministerial staff are considered necessary for the Division and Central offices.

3. The Public Works Secretariat, after examination, have proposed to accept the proposal subject to the modification that one L.D.Clerk may be allowed to the Superintending Engineer's Office instead of two asked by the Chief Engineer (Electricity). As regards the post of typist for the Division office, it is proposed to call for statistics. The Finance Department while agreeing to the proposal have suggested that for the Division Office, a post of one Upper Division Clerk proposed may be cut out and that for the Superintending Engineer's office only one additional L.D.Clerk may be allowed for the present. This Department may perhaps agree to the suggestions of the Finance Department. The extra cost involved works out to Rs.41,336/- for one year and as the expenditure on the additional staff will be met out of the sanctioned estimate of the work, Finance

Department have also suggested that it would sufficient if the M(F & E) sees the case, befo issue of orders. A draft order sanctioning employment of staff as agreed to by the Fina Department is submitted. May be circulated M(W) and M(F & E) for approval of the draft order.

29/1/54

31.1.54.

May be approved.
